***DETAILED OFFICE ACTION***

***Request for Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/14/08 has been entered.

***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, **the stator is divided into four pieces or six pieces**, as in the recitations of “*a rotor or a stator is divided into four pieces (claims 2-3, 7-8) or into six pieces (claims 4-5, 9), must be shown or the features canceled from the claims*”. No new matter should be entered.

In other words, the drawings, figs 13-18, only show the rotor being divided into 4 pieces or 6 pieces and these pieces being configured within the axial length ranges and skewed angles, as recited in the claims. However, none of the drawings shows the stator being divided into 4 pieces or 6 pieces and these pieces being configured within the axial length ranges and skewed angles, as recited in alternation that “*a rotor or a stator is divided*” in the claimed language. The drawings must show every feature of the invention specified in the claims. Therefore, **the stator is divided into four pieces or six pieces** must be shown or the features canceled from the claims.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing

should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Examiner's Amendment***

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the Issue Fee.

Please change the following:

**In the claim:**

**In claim 2, line 20** (page 3 of 12), change “0.39” to **-0.39L—**

**In claim 4, line 24** (page 5 of 12), change “0.50” to **-0.50L—**

**In claim 4, line 24** (page 5 of 12), change “0.25” to **-0.25L—**

**In claim 7, line 12** (page 7 of 12), change “0.19” to **-0.19L—**

***Allowable Subject Matter***

**Claims 2-5, 7-11, 13-15, 18-20 are allowed.**
